

The underbody weighing solution suitable for almost all trucks

## / SCORPION ONBOARD WEIGHER

## **About the Scorpion Onboard Weigher**

The Scorpion Underbody Weigher is a rugged and versatile weighing system which fits almost any truck. It has a high accuracy of 0.2% of vehicle capacity and allows the driver to weigh their load anywhere, anytime. This makes it ideal for truck drivers loading and unloading frequently and need to check weight on the spot rather than risk overload fines or damage to the vehicle.

Enjoy the benefits of using the Scorpion Onboard weigher which include:

- Check your trucks load anywhere, anytime, instantly whilst in a stationary position
- Save time and money select a suitable tip site by knowing your weights
- Eliminate fines
- Saves trips to the weighbridge which eliminates lost income due to out-of-route driving
- Reduces under/over loading trucks
- Improved safety
- Reduce damage to your trucks from overloading
- Comply with CoR legislation and SOLAS

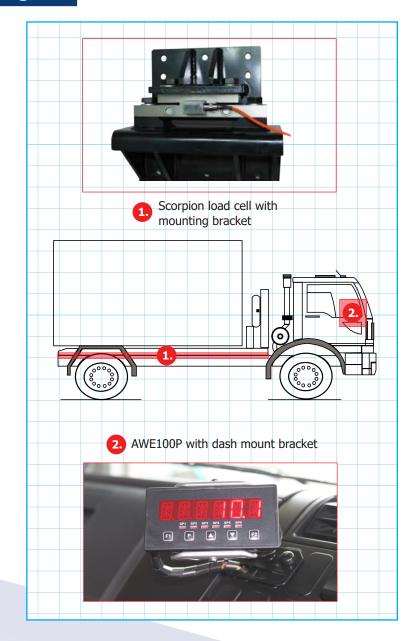

## **How it works**

Installation requires the separation of the truck bed from the chassis. The Scorpion load cell is then mounted to the truck chassis and the truck body/bed placed on top of it.

When the truck is loaded with weigh, the load cell senses the pressure applied to the truck bed and sends data to the indicator. A weight reading is displayed on the dash mounted AWE100P indicator instantly for the operater.

#### **Features**

- No loss of lifting capacity
- Multiple choices of instruments and outputs to link printer and other peripheral devices
- Can be retro-fitted to ANY truck
- ▶ Load cells made from 4340 high tensile steel
- Hermetically sealed IP67 load cells work in harsh environments

## **Suitable vehicles**

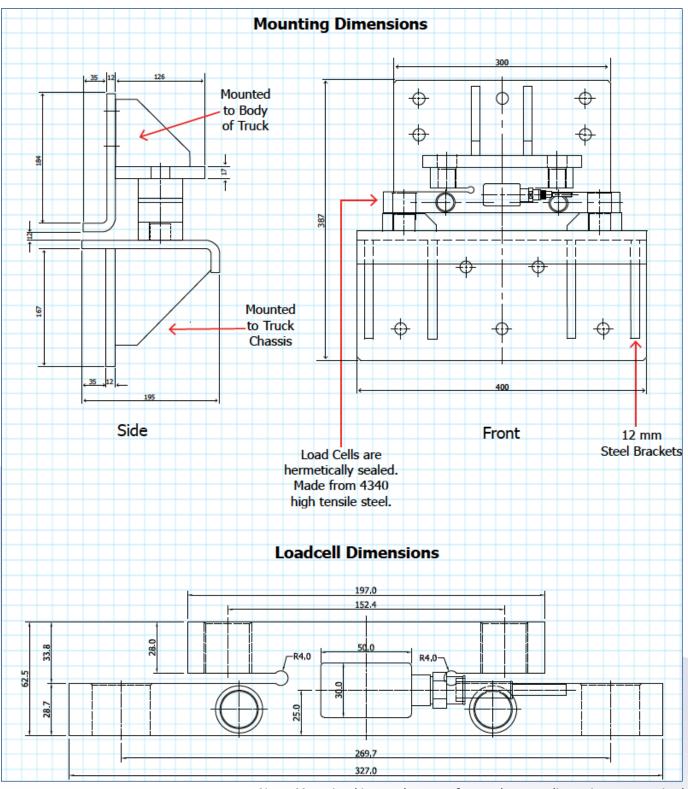

- Flatbeds
- Semi-trailers
- Tautliners
- Dump trucks
- Tankers

- Tippers
- Refuse collection trucks
- Hooklift bin trucks

# Scorpion underbody weigher load cell specifications

| Туре                 | Digital   |
|----------------------|---|
| Load cell material   | 4340 high tensile steel   |
| Weight               | 6.3 KG  |
| Load cell protection | IP67  |
| Static capacity      | 10,000 KG   |
| Rated output (mV/V)  | 1.50 (±) 0.015  |
| Nonlinearity         | (±) 0.03% of full scale   |
| Repeatability        | (±) 0.03% of full scale   |
| Creep (30 minutes)   | (±) 0.02% of full scale   |
| Zero balance         | (±) 1.0% of full scale  |
| Input resistance     | 350 Ω   |
| Output resistance    | 350 Ω   |
| Excitation voltage   | Up to 15V (DC)  |
| Cable                | - Orange polyurethene 4 core - 10 metres                        |
| Cable colour code    | Input Excitation: Red (+) Black (-) Signal: Green (+) White (-) |

# Scorpion underbody weigher order codes

#### **AWE - The Best in the Business**

AWE has built a reputation for providing world class products and services to customers in a wide range of industries for many unique applications. All of our products come with the AWE Quality Guarantee which means they have been tested to meet or exceed the specifications and requirements of your application.

Any servicing, installation and technical support issues you encounter can be addressed either onsite or remotely by our engineers and tradesmen who carry qualifications as:

- Licensed Tradesmen
- Mechanical Engineers
- Electrical Engineers
- Structural Engineers
- Draftsmen
- Fitter & Turners
- Boilermakers
- Fully Qualified Scale Makers
- Electronic Technicians
- Instrument Fitters
- Electricians
- Service Technicians
- Project Managers
- Formworkers
- Concreters

Call AWE today. We will find the right solution for your individual needs.

# If you have questions about

- weighing equipment
- packaging equipment
- bulk materials handling
- componentry

then call the sales team at AWE Group to find the right solution for your individual needs

## **AWE Product Range**

Load Cells Scales

Crane Scales

Indicators

Packaging Equipment

Onboard Weighing

**Batching Consoles** 

Test Weights

Maintenance

## Who is "Australian Weighing Equipment Group"

Jeff & Trevor Baillie started Australian Weighing Equipment (or AWE) in 1981, focusing on weighing solutions based on engineering principles. For the last 30 years AWE has built its reputation as a leading supplier of robust weighing, packaging & bulk handling equipment. Our innovative engineering and continuous product developments have led to designs that will stand up to the rigours and demands of your applications.

AWE has increased its investment in manufacturing facilities with a new 3,200sq/m factory in Sydney which has:

- ► A CNC Machine Shop
- ► Heavy Metal Fabrication Shop
- Larger work areas for our team of qualified tradesman

Acquisitions of Bradwood Packaging and Dendy Packaging and Design Engineering has increased our packaging and engineering experience.

In 2008, AWE established a manufacturing facility in China - AWE Group Packaging and Bulk Materials Handling Equipment, a purpose-built 5,000sq/m factory in Suzhou China (70kms From Shanghai).

All of the products we offer are Australian designed and manufactured under our strict quality control system in our own factories both locally and internationally.
